Your map reference:

Professor Mohamed Khadra is an acclaimed author, playwright, motivational speaker and surgeon. He heads Urological Surgery at Nepean and is Professor of Surgery at Sydney Uni and has won several research prizes.

This evening will mark the start of a very exciting year for the Day Surgery Nurses Association. Sylvia and the Staff at Nepean Public Hospital Day Surgery will be on hand to welcome you and have prepared a wonderful program we believe you will enjoy. Professor Khadra's talk will be highly entertaining and witty. In 2009 Nepean Operating Suite sent a team to Bangladesh to provide 89 patients with surgery for cleft palate and hare lip repair. Three facilities were used; a government one, a private one and a boat! Judy and Barbara share their experiences. We look forward to seeing you there.
