Welcome Back to the New Year of Day Surgery Special Interest Group.

I hope to find you safe and well after the holiday period. I was fortunate enough to have five weeks off over the Christmas/January period and have returned to work refreshed, relaxed and tanned, ready to tackle the year.

We have an exciting year ahead for day surgery education. The calendar is enclosed for you to start putting dates in your diary. The first Combined Groups Seminar with VPNG and VSPAAN is set for March at St Vincent's with the country meeting out west in Colac later in the year. Information flyer will be out shortly for St Vincent's. Our first twilight education meeting is set for May at Bellbird Private Hospital.

The International Conference in Seville, Spain, is shaping up to be big this April with our own Wendy Adams invited to present a paper.

We begin planning for our annual conference in July this month, so keep your eyes peeled for an advanced flyer shortly.

I hope to be able to continue to meet you all at our meetings through out the year. Please continue to introduce yourselves.

Priscilla Guy
President (DSSIG)
